

DYP  
International  
School BELGIUM

MORE  
THAN A  
SCHOOL

# Welcome!

DYP International School is part of a global group of schools, universities and institutes, giving our students a unique advantage in a world of emerging markets.

This makes our students stand out from the crowd.

We deliver a balanced education, driven by academic excellence and supported by a wealth of co-curricular activities.

Our talented teachers use the latest teaching methods to help young minds reach their potential in a competitive world.

We dare to dream while striving to achieve, celebrate and unite. And, we have a lot of fun along the way.

# A world education

We follow an internationally recognised curriculum designed for students with global ambitions.

Lessons are taught in English, with Dutch and French also offered.

Students are encouraged to think for themselves and develop curious minds through enquiry-based learning.

# We know our students

Every student is different, so we tailor our education to individual needs.

Students work in small groups on projects that tie in with their classwork and enable them to reach new heights.

Our individual approach is vital for preparing our students for higher education, and with the know-how of our experienced team, we help students plan their futures.

# Beyond the classroom

We offer a wide range of activities to broaden our students' outlook on life, spark creativity and uncover hidden strengths.

This co-curricular programme includes music, art, drama, debating, swimming, basketball, gymnastics and football. There are regular sport fixtures, an annual ski trip, foreign exchange programme and Duke of Edinburgh International Award scheme.
